1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-27, 51-77, 101-127 drawn to using HTTP URL associated with an entity to facilitate communication with the entity, classified in class 709, subclass 227.
 - II. Claims 28-40, 78-90, 128-140 drawn to using polling technique to check online status of an entity, classified in class 709, subclass 224.
 - III. Claims 41-50, 91-100, 141-150 drawn to sending message between entities using HTTP connection, classified in class 709, subclass 230.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, Group II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as using HTTP URL associated with an entity to facilitate communication with the entity, Group II has separate utility such as using polling technique to check online status of an entity, and Group III has separate utility such as sending message between entities using HTTP connection as discussed by applicant in the Summary of the Invention . See MPEP § 806.05(d).

3. The inventions are distinct, each from the other because of the following reasons:
 - a. These inventions have acquired a separate status in the art as shown by their different classification
 - b. The search required for one Group is not required for the other Groups

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
